## The Regional Science Fair is Moving! JCTC Welcomes dMRSEF

duPont Manual has held the regional science fair at UofL for the past few years. Since the venue is closed this year for renovations, the regional fair is moving to Jefferson Technical and Community College (JCTC) this year. JCTC will be providing us the Health Sciences building located at the intersection of Broadway and 2nd street downtown.

The fair will be held on Saturday, March 11th, 2017. There will be mandatory student pre-registration on Friday, March 10th, 2017 after 2.30 PM. Please mark your calendars for both of these dates. More details will be provided in the upcoming weeks.

This year, as with every year, we need your help with the fair judging. We are expecting a record-breaking number of students to be participating this year and we need a lot more judges. If you or someone you know is interested in signing up as a judge, please do so at <https://dupontmanual.stemwizard.com/>

Students who have not already done so should register their projects at <https://dupontmanual.stemwizard.com/>. This is an important step in the process to complete additional fair arrangements.

## Club Spotlight: duPont Manual Mu Alpha Theta

### Teacher Sponsor

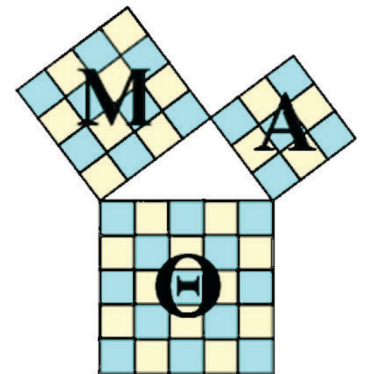

Mr. Tim Salkeld, Mr. Eric Purvis

### What is the mission of the Club at Manual?

Inspire keen interest in mathematics, develop strong scholarship in the subject, and promote the enjoyment of mathematics.

### What are the requirements to become a member? When do they meet?

Members must hold at least a 3.5 cumulative unweighted GPA in math classes and a 3.0 cumulative unweighted GPA overall, attend all meetings and tests, and complete at least 8 math-related service hours. The club meets on Fridays.

### How many students can be in the Club?

We have no cap on the number of members.

### What activities are planned for Mu Alpha Theta?

We offer math tutoring at Manual and local middle schools.

### What are some goals for the year?

We have an exceptionally large club this year, so we hope that the combined tutoring and service of all our members can reach out to a wider student base than ever before.

### Why do you think students should consider applying to Mu Alpha Theta?

If you love math, apply to our club!
